

Sugar Cookie Foot Scrub

Makes ½ pint

Recipe from: soletshangout.com

Ingredients

¾ cup granulated white sugar

¾ cup packed brown sugar

½ cup olive oil

1 Tbsp vanilla extract

1 half pint glass jar

Ribbon or baker's twine

Label

Directions

1. In a medium sized bowl, whisk sugars until completely combined.
2. Add olive oil and vanilla extract and mash together with a fork until all of the oil is combined into the sugars.
3. Pack mixture into glass jar.
4. Tie a decorative bow around the mouth of the jar with festive ribbon or baker's twine. Create your own label or use this free [printable version](#). Adhere label to front of jar and/or lid.
5. Give as a gift or enjoy yourself!

Notes

I placed a piece of clear packing tape on top of the label to adhere it to the jar. This will help make it more “water resistant” and help the label stay on the jar better.

Stored in a cool, dry place, this scrub should last several months.
